EM

Dear All

I am happy to announce that the European Colloquium on Theoretical and Quantitative Geography 2021 will happen in Manchester, UK.

I invite you to save the dates in your diaries for the ECTQG 2021, from 8 to 12 September 2021.

The ECTQG 2021 is being planned to be a regular colloquium with face-to-face sessions and keynote lectures.

We expect that by September 2021 you will all be able to travel to Manchester and enjoy again the possibilities of engaging with other colleagues in the longstanding tradition of ECTQG.

We will organise ECTQG 2021 following local and national health and travel policies in force by September 2021, ensuring that all participants will be able to contribute and present their work.

Soon we will send the first call for papers, along with the launch of our webpage. You can access [www.ectqg.eu](http://www.ectqg.eu) where there is information on the historical record of the Colloquium.

ECTQG 2021 is an event supported by the [Spatial Policy and Analysis Laboratory](#) of the [Manchester Urban Institute](#).

Best regards

Nuno Pinto
